Medinexus vs the PACS Portal

Our solution

- Fully Managed service with Australia's largest footprint of referrers
- World class data centre with redundant systems
- Single point of delivery if you implement Medinexus
- Deliver into the PMS– where most referrers want it
- Reports and images pushed to the referrer
- Web portal is quick – designed for a referrer
- Referrers can collaborate
- Integrated with your PACS

The PACs Solution

- You provide the support and service
- Can you offer a 24x7 service with redundant systems?
- No PMS delivery
- Referrers pull the reports
- Web portal can be cumbersome and slow – designed for radiologists
- No collaboration and concerns with access control to non patients
- Full Dicom available
- Lower cost

Medinexus covers more referrers and we do it all for you

What are people saying?

RADIOLOGISTS

"Receiving reports electronically with text and images on the same page is ideal for referrers and Medinexus allows us to achieve that"

Dr G M,

Radiologist, Hobart

"Medinexus allows me to give my referrers choice in how they receive reports and images and the great thing is that it all works automatically. It will help differentiate my practice from other radiologists"

Dr L S,

Radiologist, Sydney

"*We attract more referrers by delivering our reports and images via the Medinexus system. Our referrers have responded extremely positively to the new system*"

Dr E L,

Radiologist, Sydney

REFERRERS

"One of the great things with Medinexus is that when the radiologist calls me regarding an abnormal finding, I already have the images and reports available on my screen 'straight away' so I can see exactly what he is referring to"

Dr K. B.

Referrer, Sydney

"I can see how powerful the download tool is now. It's incredible technology."

Dr T. L.

Referrer, Sydney

"it is so simple to use that there is no longer any need for film and a hard copy report to be delivered to me. Its also so convenient that I can access reports and images no matter where I am "

Dr E. L.

Referrer, Sydney

"Looks like this will be very powerful

Dr S. F.

Referrer, Melbourne

"thanks – it worked beautifully and OMG the images and report looked beautiful"

Dr A. W.

Referrer Sydney
